GPO Box 2064  
Brisbane 4001

To whom it may concern,

You may know that the Australian National Flag Association of Queensland has launched a campaign to have our national flag given stronger protection by being recognised in the Australian Constitution. This would require a referendum being put before the Australian people for their approval. I am strongly in favour of constitutional protection for our flag, and would like you to pass on my views to our political leaders.

I understand that the Flag Act does provide some protection for our flag but I am concerned that, like any Act of Parliament, it could be weakened in the future. Our flag deserves constitutional protection. Protection of our flag is very important to me and I urge you to take steps to provide the best protection for our chief national symbol.

Yours faithfully,
